To Whom it May Concern,

I am happy to highly recommend Mr. Terry Smith with Brayton Construction Company. Terry was the Sr. Vice President of his previous company that constructed a \$5 million secondary school facility for First Baptist Christian Academy. The project was completed in March 2017.

Our experience with Terry was superior in every way. The work was done with excellence, it was done on time, and stayed within the budget. I was always informed of the progress throughout the construction phase. The project manager was always courteous and considerate to work with.

Terry visited the construction site frequently and stayed personally involved. He attended most of our Construction Progress Meetings. He closely monitored the project. He and his team were professional and easy to work with.

Therefore I am happy to recommend Terry Smith and Brayton Construction. I am certain that any project done by this company will be done with quality and integrity.

Sincerely,

A handwritten signature in cursive script that reads "Freddie Cullins".

Freddie Cullins
Head of School
